**Xeni Gwet'in declares State of Local Emergency due to
Nemiah (Taseko) Road washout**

Xeni Gwet'in, T̓silhqot'in Territory: A road washout at the 33-kilometre point on Nemiah (Taseko) Road is impacting the community's access into and out of the community. A road crew is currently working to repair the road and install a bridge at the washout site. The bridge installation is planned to be completed by this Thursday evening (2021-04-29)

Xeni Gwet'in leadership is working hard to ensure that all community members are safe and cared for at this time. Xeni Gwet'in leadership is asking that people do not use any back roads around the washout unless absolutely essential because all are unstable and cannot support heavy traffic.

Updates will be provided as they become available.
